Although it will not bear any responsibility for incomplete or incorrect information Also, you should know that the project and team information is correct and that we will stick to the project. Our website provides token and team information in a realistic way.

User information on the site evaluated at its own risk. Cryptocurrency market involves high risks. Many blockchain applications are experimental. Working in a decentralized way It is a technology that is maintained and developed by volunteer developers. Although some applications have reached high market values, there is no guarantee of continuity.

This for reason; We want you to know that you accept all responsibilities if you make an investment and that the PRIME APE CHAIN Token \$PAC team will not be responsible for any material and moral damage that may occur.

INTRODUCTION

PRIME APE CHAIN Token is a decentralized BEP20 community-driven token, to bring the unique thrust system code deploying on Binance Smart Chain for the first time to bring passive feature income hardcoded into our contract to top until it reaches a threshold.

The Next Gen Multi Proof Of Stake Blockchain With Fast And Scalable supported by a smart ecosystem that is made independently , PRIME APE CHAIN is the next generation in blockchain development technology in cryptocurrencies with full support with all access to the latest technology developed in the Blockchain world

PRIME APE CHAIN is layer 1 the only decentralized blockchain and smart contract platform built for Omnichain interoperability

We believe that all the best innovations will create good technology in the development of the Blockchain world in the web 4.0 era , Therefore PRIME APE CHAIN creates all use cases with Smart technology to synergize with the projects we develop

PRIME APE CHAIN is Layer 1 with Multi Proof Of Stake Consensus & trustworthy Decentralized Solution without a single point of failure

MISSION

Our goals of expanding and establishing a Fast And Scalable supported by a smart ecosystem. We want to realize our goal of a healthy climate for our clients by maintaining the pricing of our token and the incentives for our symbolic holders.

Our short-term objectives include getting the coin listed on CoinMarketCap and CoinGecko, as well as marketing the coin and posting the White Paper on our website. Our long-term objectives is to finish and launch all big application under PAC Super App Blockchain.

VISION

The biggest noticeable impact, we feel, is when individuals enter the market and decide to stay. It can be overwhelming for newbies to the Decentralized Exchange (DEX) ecosystem.

PRIME APE CHAIN plans to develop a platform (PACCHAIN) that will support a coin user's journey through its experience in our platform so that no users would be left out or feel unattended and a decentralized local area that encourages newcomers to stay, whether as dealers or stage clients.

We accept that by developing this environment, we will be able to improve the current vertical pattern's manageability.

BINANCE SMART CHAIN

Binance is one of the most well-known cryptocurrency blockchain in the industry right now. Binance has created Binance Chain, a blockchain network with a variety of features. Binance Chain was designed specifically for use with the Binance DEX. Its goal was to speed up transactions to binance. Smart Chain (BSC) is a blockchain network that allows smart contract-based applications to be executed. The following are some advantages of the Binance Smart Chain:

- Low transaction fees of as little as one cent
- Cross-chain Defi techniques that improve Defi interoperability
- High performance with a network capable of producing a block every 3 seconds
- Cross-chain Defi mechanisms that increase Defi interoperability
- A supportive Binance ecosystem that funds and bootstraps many Defi projects
